

# HT-18 CCD Camera in Sport Cap Design Operation Manual

Law Enforcement Products Manufacturer  
 LawMate

V1.0

## User Instruction:

## HT-18 Connections Illustration

HT-18 mainly uses to capture images. This model improves acoustic collection with built-in microphone. There are two application methods to use this device:

- HT-18 can connect with a portable DVR:
  1. Install the device same as Installation 1 shown above.
  2. Insert HT-18 jack into AV IN DC 5V OUT socket of the portable DVR device.
  3. Press POWER-ON button of portable DVR for 3 seconds and release the button. Note that HOLD button should switch to left when press POWER-ON button.
  4. A green light will turn on to show that DVR device is turn-on properly.
  5. Press REC button to start recording.
  6. Captured images are automatically shown on LCD display.
  7. Audio and video signals are automatically collected into recorded file on DVR.
- HT-18 can also output captured audio and video signals to an external display through AV switching cable:
  1. Install the device same as Installation 2 shown above.
  2. Slide the back cover of battery holder, BHD-SQ9V, to open the battery tray. Insert a PP3 (9V) battery with proper cathode/anode direction into battery tray. Switch to ON indication. PP3 (9V) battery supplies power to the connected camera, HT-18.
  3. The yellow and white color cable heads from switching cable, S-PJ3R, are to connect with the external audio and video jacks from monitor/television.
  4. At the other end of switching cable, S-PJ3R, is a jack socket connected with jack from HT-18.
  5. Captured images are automatically shown on the connected monitor/television.
  6. Audio and video signals are automatically collected into the recorder connected with monitor/television. Noted that external monitor/television is required to connect with an audio and video recording device. Camera does not provide recording function itself.
